

Teaching Opportunities

The Super Saturday Program

Serving Intellectually Gifted Children of Greater Cincinnati Since 1981

3440 Central Parkway, Cincinnati, OH 45225

We are seeking engineers, artists, makers, science geeks, professionals and hobbyists to provide unique and interesting classes for our intellectually gifted students.

Our classes are fun, hands-on, cover a wide variety of subjects, and allow children to stretch their abilities in new areas. Just as important as the curricula, children have a place to come together with more of their gifted peers. They may soar to their own heights, will meet others who share their intensity, ambitions, interests, and abilities, and can interact authentically. Many of our teachers are also gifted.

Class topics we would like to pursue are **3D printing, ASL, CAD, collaborative music** (jazz band, orchestral ensemble, rock band), **dinosaurs, food science, lizards, nature, nutrition, robotics, sports math** (strategy/stats/fantasy leagues), **strategy card games** (poker, Pokémon, Magic the Gathering), and **theater/improv**. Your idea for a class does not need to be limited to this list. What class would have delighted you or your child if only it were offered?
