

The Super Saturday Sampler 2025

September 6th, 1:00-3:00

A free, fun fall event to kick-off the new school year! Families considering trying out classes can sample what The Program has to offer and get questions answered. Current and past families have fun while catching up with Super Saturday friends. Many of our teachers will be there to meet and engage you in activities from their classes. Model rocket launches will occur throughout.

This year's Sampler will be held at
Cincinnati Country Day School.

If you know a child who you think could benefit,
please extend a warm welcome.

Our classes run for six weeks of Saturdays, three times throughout the school year. Gifted children choose from a variety of fun, hands-on classes that allow them to stretch their abilities in new areas. Just as important, gifted children get a place to interact authentically. They can soar to their own heights and not feel out of place. They make friends who share their intensity, ambitions, interests, and abilities.
